

Denis Haine

Education

- 2012–2017 **Ph.D. in Veterinary Sciences (epidemiology)**, *Faculté de médecine vétérinaire*, Université de Montréal, St-Hyacinthe, QC.
Director: Jocelyn Dubuc and Julie Arsenault. *La réforme des vaches laitières au Québec*. (Culling of dairy cows in Québec.)
- 2001–2002 **M.Sc. in Veterinary Epidemiology**, *The London School of Hygiene and Tropical Medicine and The Royal Veterinary College*, University of London, London, United Kingdom.
Director: Dirk Pfeiffer and Koen Mintiens. *Risk-mapping of Bovine Hypodermosis*.
- 1991–1998 **Doctor in Veterinary Medicine**, *Faculté de médecine vétérinaire*, Université de Liège, Liège, Belgium.

Research Experience

- 2017–now **Post-doctoral researcher**, *Canadian Bovine Mastitis and Milk Quality Research Network*, Faculté de médecine vétérinaire, Université de Montréal.
- Assessment of misclassification bias in longitudinal udder health studies.
 - Computing the global cost of bovine mastitis in Canada.
 - Determination of prevalence, incidence, and elimination rates of intramammary infections over the dry period.
 - Differential somatic cell count as a diagnostic tool for subclinical mastitis.
- 2010–2011 **Research Associate and Scientific Assistant**, *Canadian Bovine Mastitis Research Network*, Faculté de médecine vétérinaire, Université de Montréal.
- Determined sensitivity and specificity of a diagnostic test in the absence of a gold standard through the use of Bayesian analysis.
 - Evaluated the sensitivity of a new gas chromatography test.
 - In charge of bacterial strain culture collection (>16 500 isolates) and its database (supervising technical staff, managing material, coordinating shipment of isolates to collaborators).
 - Plan its budget and watch to its observance.
 - Coordinated a NSERC research Network scientific activities under the supervision of its director.
 - Organized submission process of activity reports by Network researchers and assure follow-ups for deadlines and conditions to be met for NSERC.
 - Support of knowledge transfer from a NSERC research centre to dairy producers.

- 1998–2000 **Researcher**, *Federal Ministry of agriculture*, Faculté de médecine vétérinaire, Université de Liège.
Research topic: Therapeutic Strategies in Bovine Respiratory Diseases.

Professional Experience

- 2010–now **Consultant in epidemiology and biostatistics.**
- Data analysis of pre-clinical and clinical studies in human and veterinary medicine, including phase II, III and IV studies.
 - Developed statistical analysis plans of veterinary clinical trials submitted to USDA Center for Veterinary Biologics and EMA.
- 2007–2010 **Director of biostatistics**, *JSS Medical Research*, Westmount, QC.
- Developed statistical analysis plans for human clinical trials submitted to FDA and Health Canada.
 - Implemented the use of SAS according to regulatory requirements in a clinical research organization.
 - Provided statistical consulting services to McGill University Health Centre.
 - Reviewed case report forms and databases set-up to improve data quality.
 - Built a team of statisticians and medical writers in a clinical research organization.
 - Produced scientific and statistical reports to governmental agencies (Health Canada, FDA)
 - Experience in human medicine through clinical research (Alzheimer's disease, HIV, cardio-vascular diseases, arthritis, asthma, glaucoma, diabetes, hepatitis, osteoporosis, ...)
- 2003–2006 **Epidemiologist**, *Épidémio-Qualité Inc.*, St-Hyacinthe, QC.
- Provided necessary information for the development of a mathematical model of airborne transmission of avian influenza, foot-and-mouth disease, Newcastle disease and Aujeszky's disease for Environment Canada.
 - Performed qualitative risk analyses for disease transmission and zoonoses for the Canadian Food Inspection Agency and animal producers' associations (bovine spongiform encephalopathy, avian influenza virus H5N1, salmonellosis).
 - Evaluated indicators of risk associated to agriculture-borne pathogens for Agriculture Canada.
 - Designed, supervised and managed pilot studies and surveys.
- 2002–2003 **Clinical Assistant**, *Large Animal Internal Medicine*, *Faculté de médecine vétérinaire*, Université de Liège, Liège, Belgium.
- 1998–2000
- Investigated farm disease outbreaks, for zoonotic and health problems.
 - Day-to-day management of a University veterinary clinic and its staff.
- 2000–2001 **Intern**, *Large Animal Internal Medicine*, *Western College of Veterinary Medicine*, University of Saskatchewan, Saskatoon, SK.
- 1998 **Veterinarian**, *Clinique vétérinaire de Vermondans–Pont-de-Roide*, Pont-de-Roide, France.

Honors

- 2013 Bourse facultaire d'excellence de 2^e année de doctorat.

Publications

Impact: Google Scholar; November 2017: citations = 493, h-index = 11, i10-index = 11.

PEER-REVIEWED

P. S. Aisen, S. Gauthier, S. H. Ferris, D. Saumier, D. Haine, D. Garceau, A. Duong, J. Suhy, J. Oh, W. C. Lau, and J. Sampalis. Professional Activities

Accredited Instructor for Software Carpentry.

Accredited Instructor for Data Carpentry.

Organizer of *clinicR*, workshops on using R at the Faculté de médecine vétérinaire of the Université de Montréal.

2014–2016 Co-maintainer of the lesson on introduction to programming with R, Software Carpentry.

Author, developer and maintainer of R package *episensr*: Basic sensitivity analysis of epidemiological results. It provides a sensitivity analysis of relative risk adjusting for the effect of non-measured confounding factors and for misclassification bias of exposure/outcome, or both.

Author, developer and maintainer of R package `misclass`: Misclassification bias in longitudinal udder health studies. It allows to assess the impact of selection and misclassification bias on incidence and association measures in longitudinal studies.

Professional Qualifications

2008 Executive Development Course, McGill Desautels Faculty of Management, McGill University

Teaching and Workshops

2017 **Instructor**, *DMV2210 Quantitative methods in veterinary medicine (statistical tests)*, Faculté de médecine vétérinaire, Université de Montréal.

Software Carpentry workshops, *McGill University (2015), Université de Montréal (2014), Python Conference (2014)*.

2014 **Practicals**, *PTM6675 Quantitative methods in epidemiology*, Faculté de médecine vétérinaire, Université de Montréal.

2012 **Montréal R Users Group workshop**, *Reproducible research with R, Sweave, and L^AT_EX*.

2002–2003 **Clinical instructor**, *Large animal internal medicine*, Faculté de médecine vétérinaire, Université de Liège.
1998–2000
